LIFE CHANGING MOMENTS

Lavleen Duggal
AGM - Business Development

SIX YEARS OF GROWTH & ACHIEVEMENTS

During my six-year journey with WebMobril Technologies, I experienced a significant life-changing moment when I was promoted from Senior Executive to Associate General Manager. This promotion has been a pivotal moment in my career and personal growth. With my new role, I got opportunities to work on a wide range of projects or with different departments within the company. I gained exposure to new technologies, processes, and business practices, expanding my knowledge and experience in the field.

Deepak Tripathi
Senior Business Analyst

A GAME CHANGER IJP IN MY CAREER

My career path at Webmobril has been rewarding and challenging. I started as a Technical recruiter, but after eight months, I realized I had more potential as a business analyst. I used my research skills to prepare for the BA interview and learned about the expectations and duties of this role in our organization. Webmobril gave me a chance to join the BA team, and I passed the internal interview successfully. I am, now, working as a business analyst for 1 year and 8 months, and have received two promotions for my performance.

Puja Puri
Associate Tech Lead

EMBRACED MOTHERHOOD WITHOUT COMPROMISING MY CAREER

My journey with Webmobril holds a very special memory of my life. I remember the day when the wonderful news about my maternity was confirmed. I naturally had some concerns about how it would impact my career. However, upon informing my manager and the HR department, I was pleasantly surprised by their empathetic and supportive response. They provided me with flexible work hours, allowing me to manage my time effectively and reduce any stress related to balancing work and personal life.
